This business was started by the seller in 2003 when he connected with Books are Fun®, a Reader's Digest® Company, to sell high quality books on-site to business and company employees. The concept is similar to "Book Mobile" for schools. This business is a fantastic opportunity for one-person business to operate throughout the year. The most popular books available in the market today are part of the large inventory available to company through host Books Are Fun®. These include New York Times Best-sellers, Children's Story-books and Classics, Educational Books, Home and Garden Books, Cookbooks, Inspirational and Multi-cultural Books, Gift Items and Music CD's, and Sports and Health Books. All assets are included in the sale. An assignment of territory is permitted within the "Contract For Services" with Corporate approval. This business is in an excellent position for a successful transfer.
